

Dan Forder

Technical Skills

- Javascript (ES6)
- React
- HTML5
- CSS, SASS
- Firebase
- Git (Github)

- Logic Pro X
- Unity (Game Engine)
- Adobe Photoshop

Profile

I am currently on _nology's 12-week front-end training course learning to be a great developer.

I am a BSc graduate with a 2:1 degree from the University of Hertfordshire looking to start my career in the tech industry.

I am self-motivated, organised, and have an aptitude for finding creative solutions to problems.

Bristol, UK

Work Experience

_nology (June 2018-Present)

Intensive Front-End Course

- Learning a range of current technologies and skills to become a great developer
- Created Hedira, a live React Web App that helps users more effectively look after their houseplants

iVideo Learning (2018-Present)

Audio Production & Software Development

- Working within a team of programmers, using Unity/C# with Git to implement ideas into the game
- Editing SFX as well as creating bespoke audio for an upcoming educational game

Greg's Bar & Restaurant (2014-2017)

Kitchen Manager

- Assisted the owner with the day-to-day running of a small business
- Cooked meals and effectively managed a team of kitchen staff

Skills

Creativity

- I compose and produce music in a variety of genres, examples of which can be found on my music website
- Whilst at _nology, I built a number of web apps (on my Github profile) to showcase my skills in development

Leadership

- In a semester long project at university, I led a group of 20 students that wrote and then taught a musical to 100 primary school children. The children then performed this work in concert which was a great success.
- As captain and coach of my University Ultimate Frisbee team, I effectively managed and motivated my team to achieve success.
- I planned and directed a regional level tournament for UK Ultimate. I worked to a tight schedule on the day as well as being on hand to deal with incidents that required first aid.

Communication

- Throughout _nology, I communicated between product owners, designers, and developers, chairing meetings and effectively keeping the team on task
- As an executive member of the University Ultimate committee for 2 years, I negotiated with the Athletic Union and efficiently communicated my own ideas as well as developing others'

Hobbies & Interests

Game Jams

I initially took part as a composer to gain experience with game audio, I realised how rewarding creating games was and that I wanted to pursue a career in development.

Ultimate Frisbee

After starting the sport 3 years ago, I have played at the national level with my University team. Last summer I had the opportunity to represent my club on the global stage at the US Open International Club Championships in Minnesota.

Gaming

I enjoy playing tabletop games with my friends; in particular, I run Dungeons & Dragons campaigns. I also have a passion for RPG and Strategy video games.
